## **Hands Up**

## **Kate Ryan**

The first time I saw you I still remember when you passed me by Love at first sight that day in September when I was so shy

The way you smiled, it turned me around - You spin my life upsi de down

And for a while time stood still - 'Cause I couldn't believe th is was real

## [Chorus]

So put your hands up in the sky C'mon and celebrate our love tonight Yea put your hands up right into mine 'Cause baby love reigns divine

The first time I kissed you I still remember, I gave all I had (We were) out of control that night in September Yea we were bad

The way we held each other so tight - You made me shiver in she er delight

I felt the earth move as time stood still - No I couldn't belie ve this was real

## [Chorus]

Yea put your hands up in the sky - C'mon and celebrate our love tonight

You gotta live one day at a time - 'Cause baby love reigns divine
