## Start Me Up

Kate Ryan

Now I don't need nobody's persuasion To get this party off of the ground So get the music jumpin' we'll all get down Start me up !!

We'll take if off like we're in our bedroom We'll turn it on like never before And we'll sweat this joint just to make a point Start me up !!

And we'll take no survivors Hit the roof can't get much higher now It's your turn... Start me up !!

I'll give ya all my riches Are you ready for booty and kisses now Here we go... Start me up !!

[Chorus]
Start me up !! Start me up !!
And if it takes all night - we can do it right
Start me up !!

Now I'm a girl that's on a mission And I won't quit till I'm satisfied So get your bod' in gear 'cause we got no fear Start me up !!

'Cause dreams won't last forever
(But) as long as we just stay together.
You can always... Start me up !!

[Chorus]
