

Take Me Down

Kate Ryan

How many times did I say
I wouldn't fall again
How many times did I say
That only fools in

Little voices telling me
That I should take my time
I just can't get you off my mind

I've seen fatal attractions
I can't make no predictions
I'm under no false illusions
But this feels so right

Questions.... Waiting for answers
This time ... Taking my chances
I've got ... No more defences
Let love take me down

Feelings ... Searching for reasons
Sunshine ... All through the seasons
Let love take me down

(Just) when I think I'm in control
That's when I start to fall
Who knows where this love can go
There's no crystal ball

I had my share of rejections
I see all in perfections
I can't make no predictions
This feels so right

[Chorus]

I've seen fatal attractions
I can't make no predictions
I'm under no false illusions
But this feels so right
