

# Tapping on the Table

Kate Ryan

I ain't tapping on the table 'till  
You get home  
Waiting for my man here all alone

I ain't tapping on the table 'till  
You get home waiting here waiting here

When our love has hit the ground  
You want me to pick it up  
When I hold it in my hands  
You tell me to let it drop

What do you want from me  
What do you need from me

When you got it all you're gone  
On top of the world you're strong  
When you're money's down my phone  
Keeps ringing all night long

What do you want from me  
What do you need from me

I ain't tapping on the table 'till  
You get home  
Waiting for my man here all alone

I ain't tapping on the table 'till  
You get home waiting here waiting here

Oho I'm gonna be out all night  
Oho have a fickle flirt that's right

Should you have all the fun  
I ain't no freaking nun  
I've been around the world  
I know how its done

What do you want from me  
What do you need from me

Lets dip to the club come on  
Hot ladies teaming up come on  
Got my own dough stack ahah  
I hate holding back ahah  
Lets steam up the place come on  
Wind you're waist to the bass come on  
Trow your hands in the air ahah  
Let them fellas know you're here aha

I ain't tapping on the table 'till  
You get home  
Waiting for my man here all alone

I ain't tapping on the table 'till  
You get home waiting here waiting here
