

# The Rain

Kate Ryan

I don't know how far I can see  
'cause it's all blue water streaming towards me  
The sun needs to shine normally  
but it's all grey rain

The rain, the rain on me, rain on me

[Chorus]

So I will find a place, where I can hide from the sky  
And I will wait in this place,  
'cause I know you're trying to

Open up your sky  
Push away the dark clouds and shine  
Forget the thunder so loud, don't be afraid  
Show yourself! Don't hide now!

The rain, the rain on me, rain on me  
The rain, the rain on me, rain on me

I don't know how high you can see  
but it's all grey water falling down on me  
The sun needs to shine normally  
but it's all grey rain

[Chorus]
