

Bad Bad Drug

Kate Voegele

Feel the fever coming on, it's burning up strong
Got me like a loaded gun, the damage is done
Oh I can't stop now, I'm in deep, I might as well drown

Cause you're a bad, bad drug and I'm a mad, mad women
Cause I got it bad, bad for you
It's just a sad, sad story, it's a bad storm warning
That I can't help but walk into

You're a bad, bad drug, you
Oh, but baby, baby do what you do
You're a bad, bad drug, you
But I do, I do, I do want you

Feel you running through my veins, my heart is in chains
Poison of the sweetest kind, I'm out of my mind
Lying on the floor, I'd do anything to get me more

Cause you're a bad, bad drug and I'm a mad, mad women
Cause I got it bad, bad for you
It's just a sad, sad story, it's a bad storm warning
That I can't help but walk into

You're a bad, bad drug, you
Oh, but baby, baby do what you do
You're a bad, bad drug, you
But I do, I do, I do want you

But no matter how much you lie to me, oh
It's never enough to fix me
So get me stoned, cause I come home
The moment your venom hits me

You're a bad, bad drug and I'm a mad, mad women
Cause I got it bad, bad for you
It's just a sad, sad story, it's a bad storm warning
That I can't help but walk into

You're a bad, bad drug, you
Oh, but baby, baby do what you do
You're a bad, bad drug, you
But I do, I do, I do want you
