

# Greatest Love

Kate Walsh

You just don't know  
where the time goes  
sitting there in your chair with the lamp on  
walking late just to stay right on top of the landslide  
you like to hide behind  
waiting for peace of mind

and I just don't know  
where the time goes  
sitting here my career moving faster  
writing songs that belong to my master  
the greatest love  
that I thought came from above  
but have you moved on from my love

this is getting silly now  
I have to walk away  
I close the door behind me  
and just look the other way  
but you don't know how hard  
you don't know how hard  
you don't know how hard  
you don't know how hard  
you don't know how hard  
how hard it is

I know that I  
always get by  
filling time with the crimes I keep regretting  
and hoping with enough time I'll be forgetting  
the greatest love  
'cause you never think of us  
quite like I remember us

this is getting silly now  
I have to walk away  
I close the door behind me  
and just look the other way  
but you don't know how hard  
you don't know how hard  
you don't know how hard  
you don't know how hard  
you don't know how hard  
you don't know how hard  
how hard it is
