

# Better

Katelyn Tarver

You don't call me enough  
And I call you too much  
You're fine just wasting time  
And I'm always in a rush  
Sometimes it's easy with you  
And sometimes it's tough  
But I'll never give you up  
I guess I love you too much

Now I'm not so scared of forever  
You'd like to stay sweeter  
'Cuz I know that you'll be there  
Even when we don't have it together  
We still have it better  
We still have it better

With you it's always better , better , better , better

You make me believe in me  
When I think I'm not enough  
My tears fall easily  
And you're there to catch them all  
You see my crazy sometimes daily  
And you still keep me around  
Well I think it's safe to say  
That you've got me figured out

Now I'm not so scared of forever  
You'd like to stay sweeter  
'Cuz I know that you'll be there  
Even when we don't have it together  
We still have it better  
We still have it better  
With you it doesn't matter  
Where wind or wherever  
Yeah through any weather  
Even when we don't have it together  
We still have it better  
We still have it better

With you it's always better , better , better , better

With you it is always better

Now I'm not so scared of forever  
You'd like to stay sweeter  
'Cuz I know that you'll be there  
Even when we don't have it together  
We still have it better  
We still have it better  
With you it doesn't matter  
Where wind or wherever  
Yeah through any weather  
Even when we don't have it together  
We still have it better  
We still have it better

With you it's always better , better , better , better

With you it is always better
