

Everything

Katelyn Tarver

Little bird up in the sky
Are you up there looking down on me
Feel so happy I could fly
love has lifted me right off my feet
I never knew that it would be so sweet
Ever since you caught my eye
Something crazy has come over me
I wanna be your everything
And I'm one step closer I wanna be your everything whoa oo oo

Little one I need to know
Are you real or is it just a dream
Everything you touch is gold
Everyday without you incomplete
Do you remember when we met that night
You were the only one that I could see
And I knew you would be mine
Find your love and it will set you free
I wanna be your everything
And I'm one step closer I wanna be your everything whoa oo oo

And if you love me I will say
Sha la la la la la la la la
We'll be together everyday
Nah nah nah nah nah nah nah
Cause no one makes me feel this way

I wanna be your everything
And I'm one step closer I wanna be your everything whoa oo oo
