

Anybody's Heart

Katharine McPhee

It's a great big world to a scared little girl
If you smile just right no one knows you might have
A heart full of pain and a soul that can't reign
And a stomach full of butterflies

All that I wanted was just to feel safe
Safe in your arms

[CHORUS]

Say you didn't mean to
Say I wouldn't understand
But it's time you say something
God knows it's the one thing I need
And the heart you broke
Know it wasn't just anybody's heart

So I bit my nails and I held my breath
And I said "I'm fine" yeah, I did my best
But you can't tell me you never knew the truth
Of all the fear I felt, how I worried about you

And all that I wanted was just to feel safe
Safe in your arms

[CHORUS]

I was yours, I was yours
And the heart that you broke
Was devoted and pure
And it wasn't just anybody's heart
