Anybody's Heart

Katharine McPhee

It's a great big world to a scared little girl If you smile just right no one knows you might have A heart full of pain and a soul that can't reign And a stomach full of butterflies

All that I wanted was just to feel safe Safe in your arms

[CHORUS] Say you didn't mean to Say I wouldn't understand But it's time you say something God knows it's the one thing I need And the heart you broke Know it wasn't just anybody's heart

So I bit my nails and I held my breath And I said "I'm fine" yeah, I did my best But you can't tell me you never knew the truth Of all the fear I felt, how I worried about you

And all that I wanted was just to feel safe Safe in your arms

[CHORUS]

I was yours, I was yours And the heart that you broke Was devoted and pure And it wasn't just anybody's heart
