

Don't Need Love

Katharine McPhee

Dress me all in black
Wanna act like I ain't my own age
Maybe I'll disgrace my own name
Like a rebel on the run

A make out in the back
Cadillac swerving down the fast lane
Kiss me, get the red lights flashing
Start a riot with your tongue

I throw my caution down
And take me deeper underground
Don't blame me
All I want for now
Now is just lust

I don't need love
To jumpstart my heart again
I'll start whenever I say when

I don't need love
To light up like kerosene
Run wild through my dirty dreams

I don't need love
I don't need love
I don't need love

I don't need love
I don't need love
I don't need love

Hitching up my skirt
Wanna flirt
Making up my own game
If you don't wanna play it my way
I can call someone who will

I guess I had to learn
Be absurd
'Cause nobody told me
Watch my wicked mind unfolding
Any momentarily thrill

I throw my caution down
Unveil this velvet underground
It held me
You're the one for now
Cause it's just
Lust

I don't need love
To jumpstart my heart again
I'll start whenever I say when

I don't need love
To light up like kerosene

Run wild through my dirty dreams

I don't need love
I don't need love
I don't need love

I don't need love
I don't need love
I don't need love

I'll kindly show the way out
Let's quit before this plays out
It feels like I've been weighed down
And you're a better lover as a stranger

Don't wait on me
Darling, I'm not your lady
Oh, gone without a trace
Ooh, I, I don't need love

I don't need love

Oh no

I don't need love, love

I don't need love
