

# Viva Tonight

Katherine Jenkins

So here we are  
Waking from the shadows to the sun  
So near so far  
Feeling like our journey's just begun

All we hope and reach for  
Sometimes can't be found  
While we have the chance  
Let's live for now

Viva tonight, I'm by your side  
Viva our star, our guiding light  
Viva the dream we hold inside  
Viva the love, the love we share tonight

So hand in hand  
Together we are stronger we belong  
We understand  
Here is where our hearts can be as one

If we lose direction  
We'll get home somehow  
So while we have the chance  
Let's live for now

Faces faces all around us  
We don't see them now we've found us  
We have found us
