

## Baby Blues

Kathryn Williams

You can hear the grass grow  
And feel what the birds think  
But you won't drink  
What they give to you

Prettier than sunsets  
Brighter than a revelation  
You say it's just mild sedation  
For your other life

Your cross protects you when it's dark  
When you close your eyes  
You think with your heart

You watch for the boredom  
Steal a seat for your visitors  
Seen through your eyes  
You laugh if the phone rings  
You drew it on the wall  
The line goes down to the floor  
Then fades away

Your cross protects you when it's dark  
When you close your eyes  
You think with your heart

Because your prettier than sunsets  
And brighter than a revelation
