

Escaping

Kathryn Williams

There's nothing in me
Do you feel it too?
Caught in a conversation
With nothing to say
My mouth is moving
Have you seen yet?
That it's only air

Nicholas said
Don't listen too hard
They don't to you
It's only air escaping

Holding it back
Behind the cage of my teeth
When can I let myself go?
Moving towards you
The air that I've taken
As if I want to touch you
But it's only air

Nicholas said don't listen too hard
They don't to you
It's only air escaping

You see money in notes
How do they hook to your heart
All pyrotechnics
And dancers in spotlights
Nothing is human
I can't see any air

It's only air escaping
