

Fell Down Fast

Kathryn Williams

I fell down fast, I fell down free
Lost my money, lost my greed
I just want the prize you gave to them

Became a saint from just a friend
Mending boats on white hot sands
We all want to still think you are there

'Cause you were the one that spoke out
We were the ones you tried to stay awake
We were the ones sorting our lives out
You were the one who made the break

You fell down fast, you fell down free
Found a freedom, lost the needs
I just want to prize you away

We carry on, we carry memories
With every day you're turning into dreams
I just want one more argument

'Cause you were the one that spoke out
We were the ones you tried to stay awake
We were the ones sorting our lives out
You were the one who made the break

You fell down fast, we fell down fast
Fell down fast
In just a flash you fell down fast
Fell down fast

You fell down fast, you fell down fast
Fell down fast
In just a flash you fell down fast
Fell down fast
