

## Just Like A Birthday

Kathryn Williams

Watching cartoons turning their bodies inside out  
With a whack of a hammer I'm feeling you lemsips  
For three days your body has hidden  
For three days your brain has been switched off  
It's just a cold and we're just in love and I'll  
Remember this just like a birthday

The bird cage has left its door on the latch  
The bird could fly  
Whether it wants to is another cage  
The cage that we're happy with  
Like a light show the left to the right  
Of car lights on the ceiling  
It's just a cold  
And we're just in love  
And I'll remember this just like a birthday

It's a scandal I'm here lots of glasses on walls  
In the dark the bird shit smells worse  
And I'll remember this  
Just like a birthday

It's just a cold  
And we're just in love
