

# Night Came

Kathryn Williams

Night came to me  
Like a tired movie star  
Crept up to me in the dark  
I heard it call

You're too tired to listen to me  
But you'll miss me  
If you sleep  
And what's a day  
Without a night  
To give it birth

Lie below  
Watch it rise  
What is worse  
I need her like  
She needs me  
How can you say  
The night is free

You cursed me cause i stole the light  
But i helped the blind  
Took everybody's sight  
Then they bought the light from the day  
Now there's not a safe place

And what's a day  
Without a night  
To give it birth  
Lie below watch it rise  
What is worse  
I need her like  
She needs me  
how can you say  
The night is free
