

## Burnin' Old Memories

Kathy Mattea

I used to love him; that ain't no lie  
We had a good thing till he said goodbye  
Then, with one touch, you set my heart ablaze  
I'm burnin' old memories with a brand new flame  
A perfect match, that's what we are  
I'm gettin' over him underneath the stars  
The smoke has cleared from the hold he had on me  
I'm burnin' old memories with a brand new flame  
One by one, those old embers burn  
You came along when I had nowhere to turn  
Just when I thought I'd never love again  
I'm burnin' old memories with a brand new flame  
When I'm with you, I'm without a doubt  
We got a fire I don't ever want to put out  
And here with you is where I'm gonna stay  
Just burnin' old memories with a brand new flame  
One by one, those old embers burn  
You came along when I had no where to turn  
Just when I thought I'd never love again  
I'm burnin' old memories with a brand new flame
