

Burnin' Old Memories

Kathy Mattea

I used to love him; that ain't no lie
We had a good thing till he said goodbye
Then, with one touch, you set my heart ablaze
I'm burnin' old memories with a brand new flame
A perfect match, that's what we are
I'm gettin' over him underneath the stars
The smoke has cleared from the hold he had on me
I'm burnin' old memories with a brand new flame
One by one, those old embers burn
You came along when I had nowhere to turn
Just when I thought I'd never love again
I'm burnin' old memories with a brand new flame
When I'm with you, I'm without a doubt
We got a fire I don't ever want to put out
And here with you is where I'm gonna stay
Just burnin' old memories with a brand new flame
One by one, those old embers burn
You came along when I had no where to turn
Just when I thought I'd never love again
I'm burnin' old memories with a brand new flame
