

# Baby You're Everything

Katie Armiger

In this moment, no place I'd rather be  
Hearts wide open, you and me, and nothing in between  
Sweet sunshine, it's shining down on me  
Yeah I feel so fine, feel so complete

You're the sand beneath my feet  
Waves crashing on the beach  
Warm from the sun on my skin  
I could stay all afternoon  
Just the ocean, me and you  
Slow it down and soak it in  
When you're here with me  
You're all I need  
Baby, you're everything

Rays of gold, turning into grey  
To mark the end of this perfect day  
And who knows what tomorrow's gonna bring  
But I do know this, one thing

You're the sand beneath my feet  
Waves crashing on the beach  
Warm from the sun on my skin  
I could stay all afternoon  
Just the ocean, me and you  
Slow it down and soak it in  
When you're here with me  
You're all I need  
Baby, you're everything  
Baby, you're everything

Laying here with you  
I know you feelin' too  
Wanna stay here, stay here, stay here with you

You're the sand beneath my feet  
Waves crashing on the beach  
Warm from the sun on my skin  
I could stay all afternoon  
Just the ocean, me and you  
Slow it down and soak it in  
When you're here with me  
You're all I need  
Baby, you're everything
