

# Black And White

Katie Armiger

It's so hard to understand  
Should I go, or stay with him tonight, I can't decide  
Some days he'll criticize  
But he won't apologize  
For what he did wrong

Just when I thought I'd made up my mind  
He goes and does something right  
Sometimes love it makes you blind  
Wish it was as simple as black and white, black and white

I don't want to be that girl  
Who's comfortable  
And can't ever be alone  
I just want to be in love  
The way that I dreamed of  
When I was a little girl

Just when I thought I'd made up my mind  
He goes and does something right  
Sometimes love it makes you blind  
Wish it was as simple as black and white, black and white

Want to be hand in hand  
Walking two by two  
So in love, so brand new  
But here I am, full of doubt  
I just gotta figure out  
Should I stay or should I go  
Finally have to choose  
Either way I lose

Just when I thought I'd made up my mind  
He goes and does something right  
Sometimes love it makes you blind  
Wish it was as simple as black and white, black and white
