

Movin' On

Katie Armiger

I'm tired of feeling you watching me
I'm tired of thinking about what could be
I don't think you understand
This night wasn't in my plans
Now I know that, when I say that
There's a promise on my hand

Cause I'm moving on with the rest of my life
And I'm not sure if I can make things right
And it's too late, we went a little too far
And now I have to live with us broken apart
And I already gave another man my heart
Oh, I'm already gone and I'm moving on

Now that we ran out of time
You have to deal with my goodbye
Cause when I boarded that old bus
I left you and found another love, another love
Cause I know that, I shouldn't feel bad
Cause I know we can never go back

Cause I'm moving on with the rest of my life
And I'm not sure if I can make things right
And it's too late, we went a little too far
And now I have to live with us broken apart
And I already gave another man my heart
Oh, I'm already gone and I'm moving on

Though we never should have said, it would never work out
Watch it have to come back now

I'm moving on with the rest of my life
And I'm not sure if I can make things right
And it's too late, we went a little too far
And now I have to live with us broken apart
And I already gave another man my heart
Oh, I'm already gone and I'm moving on

I'm moving on with the rest of my life
And I'm not sure if I can make things right
And it's too late, we went a little too far
And now I have to live with us broken apart
And I already gave another man my heart
Oh, I'm already gone and I'm moving on
