Stealing Hearts

Katie Armiger

You've been warned about me, Don't try to get too close. I know you want to chain me down but, I'll leave you with my ghost. I took your '69 Cadillac, parked it down by the creek Just the second I'm certain that you're fallin' for me. I'm gonna drive away, I can't stay, I can't stay. And if your bank account is empty and your savings are gone Boy, don't feel like you're a fool because you weren't the firs t one. You never had a breath from the start Because I'm taking names and stealing hearts. I've broken hearts in Texas, And up in Tennessee. I guess I do feel kinda bad but, These boys make it so easy. They leave their credit cards out and them keys laying 'round When you're thinkin' that I'm settled boy, I'm ditchin' this to wn. I'm gonna drive away, I can't stay, I can't stay. And if your bank account is empty and your savings are gone Boy, don't feel like you're a fool because you weren't the firs t one. You never had a breath from the start Because I'm taking names and stealing hearts. I'm not lookin' for trouble, I'm just tryin' to get by But if you come in my way, I'm gonna drain you dry. I'm gonna drive away, I can't stay, I can't stay. And if your bank account is empty and your savings are gone Boy, don't feel like you're a fool because you weren't the firs t one. You never had a breath from the start Because I'm taking names and stealing hearts, I'm taking names and stealing hearts.
