

# A Beautiful Mystery

Katie Costello

Turn off all the lights  
Let the moon shine low  
Hear my heart beat pound  
Ten feet off the ground  
Sailing through the stars  
All the colors bend  
I won't go back again

I feel the sparks  
Takin' over  
Live young and free  
Now I can see  
How wonderful  
How suddenly  
This world can be a beautiful mystery

Go on, take a picture of my heart  
Look here, it's shining through the dark  
Stay close and never let me go  
Now I see, this world can be  
A beautiful mystery

Oh A Beautiful Mystery  
Oh A Beautiful Mystery

Looking for a clue  
To make it all brand new  
Finding ways to look beyond the sky  
Your the missing link  
Tied together dreams  
I can feel it surrounding me

I feel the sparks  
Takin' over  
Live young and free  
Now I can see  
How wonderful  
How suddenly  
This world can be a beautiful mystery

Go on, take a picture of my heart  
Look here, it's shining through the dark  
Stay close and never let me go  
Now I see, this world can be  
A beautiful mystery

Oh A Beautiful Mystery  
Oh A Beautiful Mystery

Sweet dreams  
Go to sleep  
I'll see you in that beautiful mystery

Go on, take a picture of my heart  
Look here, it's shining through the dark  
Go on, take a picture of my heart  
Look here, it's shining through the dark

Now I see, this world can be  
A beautiful mystery
