

# Chase Me

Katie Herzig

Come to think of it, there's not much to say  
When it don't end the way that you thought it would  
'Cuz I can sit here counting the days  
When I thought you should call me  
Can you live with it?  
The memory of nothing to lose

Oh, by the way, I have so much confidence in you  
Oh, by the way, this just doesn't happen for you

You gotta chase me  
Fight to break me  
To make all your dreams come true  
Don't keep me waiting,  
While you're saving yourself, for you

It's too soon to tell, but they said that they loved you  
And I think that I could of, too.  
Said they'd never seen me smiling my brains out  
I smile all my brains out for you  
The tale will come to an end  
'Cuz when night came the same old  
Cinderella tells her tale.  
Now I sit here waiting for my shoe

You gotta chase me  
Fight to break me  
To make all your dreams come true  
Don't keep me waiting  
While you're saving yourself, for you.

Who's counting anyway?  
Another day is over.  
Who wants to live that way?  
Another heart is sober.  
Unwrap her mystery.  
Pour out your heart and show her.  
That she is everything you see.  
Because she sees.

You gotta chase her  
Fight to break her  
To make all your dreams come true  
Don't keep her waiting  
While you're saving yourself, for you.

You gotta chase her  
Fight to break her  
To make all your dreams come true  
Don't keep her waiting  
While you're saving yourself, for you.
