

## Closest I Get

Katie Herzig

What if I wait and you don't show  
If I left you half just to keep me whole  
What if I held my breath so long  
Would you notice the silence had lasted so long  
What if the closest I get to the moment is now

I have seen love come and go  
I watched it pass with my heart held close  
There's no easy way to know  
If I'm looking back or I'm getting close  
What if the closest I get to the moment is now

Love it has no guarantees  
Which muse will lay its hands on me  
We said the words we knocked on wood  
And I'm still here waiting to see what could be.  
What if the closest I get to the moment is now?
