

I Will Follow

Katie Herzig

You were in a dream I had
Doing dishes at the laundry mat
And then you smiled at me
You said lets hide and seek
I'm gonna count to three
Where did you go

One step forward two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will follow
I will follow

I saw you on a downtown street
Eating peaches in an apple tree
You said take my hand
We'll be a marching band
They'll love us in Japan
Where did you go?

One step forward two steps back
So funny I forgot to laugh
You lead me down the garden path
And I will follow
I will follow
