

Let you go

Katie Herzig

You might find love
It might find you
It might take every piece of you
It takes your breath
It takes your heart
It can take your world apart
To let you go
It takes my soul

I wished you here
I wished so hard
I wished your smile in the dark
You came for me
You came so true
You gave me all this hope to lose
And now to know
You have to go
It takes my soul

But I'll take pain to know this love
To feel alive
To feel enlightened
I would rather take the fall
Than to never love at all
I'll take pain to know this love
To feel alive
To feel enlightened
I would rather take the fall
Than to never love at all

But now I know
You can go
Now I know
I'll let you go

I'll let you go

But I'll take pain to know this love
To feel alive
To feel enlightened
I would rather take the fall
Than to never love at all
I'll take pain to know this love
To feel alive
To feel enlightened
I would rather take the fall
Than to never love at all
