

Say It Out Loud

Katie Herzig

Say it out loud
We're moving the world around
Careful you don't look down
You might be the last one out
We're here to stay
We won't give our lives away
We know there's a better way
The people will have their say
And they'll say it out loud

You think it's fun
Holding a loaded gun
Pointing it at the sun
Not fooling anyone
I'll say it now
We're starting a revolution
Against our own confusion
There will be no illusion
When we say it out loud
Say it out loud
