

## Shovel

Katie Herzig

Hearts bend 'cause they can't break  
When they can't take  
All that is given to them

Glass eyes on your sad face  
It's a sad story somebody's written on you  
Love in my heart, right from the start  
So please take me with you

Birds sing out the window  
Sing out the window sing  
Do you hear those birds  
sing out the window  
Sing out the window sing

Take me with your shovel  
We'll burry all your troubles  
All your troubles

Oh the light is always on you  
Always in the light  
The light is always on you  
Always on you  
Always in the light
