

Way To The Future

Katie Herzig

She could be, easy to find you see
She writes her songs, only for you to sing
She digs the words, out of the sky
She leaves them there, for you to find

The way that you love dear, the fate of the world you leave behind
A way to the future, making a moment built to last
You want to love, well now's your chance

You hear the beat, over the radio
You see the scene, a satellite picture show
You take her words, out of the sky
She left them there, for you to find

The way that you love dear, the fate of the world you leave behind
A way to the future, making a moment built to last
You want to love, well now's your chance

The way that you love dear, the fate of the world you leave behind
A way to the future, making a moment built to last
You want to love, well now's your chance
