

Chase Me

Katie Melua

If you chase me
I'll be a firefly
In the midnight sky
I'll intoxicate you

I'll be yours forever for a day
Chase me or I'll fly away

If I'm hiding out of sight
Try harder and get me alone tonight
Cause I'd rather be tangled up with you

The hunter always lose a few
More hungry for it than a kill
So thrill me darling with those baby blues

If you chase me
I never stopped reaching out
Just seek me out beyond the moonbeams

I'll be yours forever for a day
Chase me or I'll slip away

The best of things would disappear
Though the feeling lost as souvenirs
But a scent of memory treats you like a fool

Heaven's waiting on your lips
I'll dissolve beneath your fingertips
And you'll believe I'm too good to be true

I'll be your everything
A ride of strew
A shine like teardrops

I'll be yours forever for a day
Chase me or I'll fly away
