

# I'd Love to Kill You

Katie Melua

I'd love to kill you with a kiss  
I'd like to strike you down with bliss  
I'd like to tie you up in knots  
until your heart stops

I'd love to kill you with a glance  
I'd like to put you in trance  
I'd like to drug you with my scent  
And use you in the moment

Oooh

I'd love to kill you as you eat  
The pleasure would taste so sweet  
I'd like to open up your skin  
And wander there within

I'd love to kill you by a stream  
Where no one can hear my baby scream  
And then I'd run away and be free  
The sweetest victory

Oooh

I love to watch you in your sleep  
Cause you don't have power over me  
And when you're awake I'm undone  
Under you spell, in hell

Oooh
