

# I Never Fall

Katie Melua

When you fall in love too careless and too fast  
It may never last, it's a freighting view  
You'll fall down with a bump

[Chorus:]  
I never fall  
I always jump

There's a certain risk  
What can your heart stand?  
Some things can be planned  
But if you get to fly  
Landing's worth a thought

[Chorus]

One step at a time  
The edge is getting nearer  
Now that we've met  
The world seems clearer

Before we know it's now or never  
So let's jump together

If he takes your heart  
Takes you out to hide  
And you don't question that

But if he lies to you  
You'll crush down with a thump

[Chorus 3x]
