

It's All in My Head

Katie Melua

Every night we fall into bed
But it's all in my head
Every night we fall in a heap
And you kiss me to sleep

And baby, all the sleepy things you say
Blow me away 'til the next day
When I find what we did and we said
Was all in my head

Every night you whisper to me
This always will be
Every night you smooth down my hair
But you're not really there

And darling, it seems as if we know
Our love will grow, then the next day
I find what we did and we said
It was all in my head

Drowsy, drinking, I keep thinking
We're not far apart
Scared of waking, lonely, aching
Just me and my hopeless heart

Sleeping soundly, your arms 'round me
Through the night we cruise
Then I found it's in my mind
That you stroke away my blues

Every night we fall into bed
But it's all in my head
Every night we fall in a heap
And you kiss me to sleep

And baby, all the sleepy things you say
Blow me away 'til the next day
When I find what we did and we said
It was all in my head
It was all in my head
It was all in my head
