

## It's All in My Head

Katie Melua

Every night we fall into bed  
But it's all in my head  
Every night we fall in a heap  
And you kiss me to sleep

And baby, all the sleepy things you say  
Blow me away 'til the next day  
When I find what we did and we said  
Was all in my head

Every night you whisper to me  
This always will be  
Every night you smooth down my hair  
But you're not really there

And darling, it seems as if we know  
Our love will grow, then the next day  
I find what we did and we said  
It was all in my head

Drowsy, drinking, I keep thinking  
We're not far apart  
Scared of waking, lonely, aching  
Just me and my hopeless heart

Sleeping soundly, your arms 'round me  
Through the night we cruise  
Then I found it's in my mind  
That you stroke away my blues

Every night we fall into bed  
But it's all in my head  
Every night we fall in a heap  
And you kiss me to sleep

And baby, all the sleepy things you say  
Blow me away 'til the next day  
When I find what we did and we said  
It was all in my head  
It was all in my head  
It was all in my head
