It's All in My Head

Katie Melua

Every night we fall into bed But it's all in my head Every night we fall in a heap And you kiss me to sleep

And baby, all the sleepy things you say Blow me away 'til the next day When I find what we did and we said Was all in my head

Every night you whisper to me
This always will be
Every night you smooth down my hair
But you're not really there

And darling, it seems as if we know Our love will grow, then the next day I find what we did and we said It was all in my head

Drowsy, drinking, I keep thinking We're not far apart Scared of waking, lonely, aching Just me and my hopeless heart

Sleeping soundly, your arms 'round me Through the night we cruise Then I found it's in my mind That you stroke away my blues

Every night we fall into bed But it's all in my head Every night we fall in a heap And you kiss me to sleep

And baby, all the sleepy things you say Blow me away 'til the next day When I find what we did and we said It was all in my head It was all in my head It was all in my head
