

# Storm Rider

Katra

Hide  
Behind the shadows of the night  
In no light  
She's riding  
With whirlwind  
And with the angels  
She's crying  
Betrayal has poisoned her heart

Hide  
Before the good and bad collide  
In no time  
She lives in  
Cloud-bursting  
And with that anger  
She's striking  
Betrayal has torn her apart

And when the time has come, she rides the storm  
Like wind she howls for all betrayed, deceived and born  
And with the rain she comes and rides the storm  
For there's no love no more, she makes the great rain fall

Hide  
'Cause all the nature's on her side  
This dark night  
She comes in  
Storm-riding  
And with the angels  
She's crying  
Betrayal has poisoned her heart

And when the time has come, she rides the storm  
Like wind she howls for all betrayed, deceived and born  
And with the rain she comes and rides the storm  
For there's no love no more, she makes the great rain fall

Fall great rain  
Wash away all the pain  
And blow with the wind again  
Pour down and mend

And when the time has come, she rides the storm  
Like wind she howls for all betrayed, deceived and born  
She rides the storm  
For there's no love no more, she makes the great rain fall
