

# Bring It On

Katrina Carlson

October rolls around  
My heart falls to the ground  
Two thousand something now  
Still I won't sell out  
Memories turn to dust in an urn  
When life still burns  
So don't be afraid

(Chorus)

Bring on the night in wild town  
Fire and light shining down  
We know the world won't wait for long  
We're free and we are strong  
So Bring it On, Bring it On, yeah  
Bring it On, Bring it On

Tail lights slamming red  
Monkey screeching in your head  
You drive into the rain against every grain  
A cold wind blows, another tear flows  
But life still goes on  
So don't be afraid

(Chorus)

I am not afraid of the daisies on your grave  
There's a wide-open sky way up high  
Where I know you're flying

I won't be afraid

(Chorus)
