

Bring It On

Katrina Carlson

October rolls around
My heart falls to the ground
Two thousand something now
Still I won't sell out
Memories turn to dust in an urn
When life still burns
So don't be afraid

(Chorus)
Bring on the night in wild town
Fire and light shining down
We know the world won't wait for long
We're free and we are strong
So Bring it On, Bring it On, yeah
Bring it On, Bring it On

Tail lights slamming red
Monkey screeching in your head
You drive into the rain against every grain
A cold wind blows, another tear flows
But life still goes on
So don't be afraid

(Chorus)

I am not afraid of the daisies on your grave
There's a wide-open sky way up high
Where I know you're flying

I won't be afraid

(Chorus)
