

# Somewhere Over You

Katrina Carlson

Wounded by the world  
They worked you over coldly  
You suffered through each girl  
At least that's what you told me  
I heard what you didn't want me to hear  
There's more to your stories than those tears

(Chorus)

I'm over the rainbow  
Somewhere Over You  
Over, over the rainbow  
Somewhere Over You

I can't blame you much  
I kept us only lovers  
Truth revealed through touch is  
Filtered through the covers  
I never brought to my mouth  
Lips I didn't trust inside and out  
All I'm about

(Chorus)

No clouds of lies block the light  
Bluebirds fly high  
I'm over the rainbow  
Somewhere Over You

Gimme a reason to stay  
Gimme love, gimme something to hold on to  
Gimme a reason to stay  
And I'll show you ten why I should run away

(Chorus)

Somewhere Over You  
Somewhere Over You  
Somewhere Over You
