

The Secret

Katrina Carlson

You made me smile, it took awhile to get over myself
You made me want to climb a ladder
Take my heart off the high shelf
So what if somehow
I can't hide from what you're seeing
You know how to get inside of me

(Chorus)

Yeah, your love took me by surprise and
Yeah, your love opened up my eyes and
Yeah, you knew the secret, you knew the secret
And you whispered it to me

You made me feel
Your love could heal the deepest dark in me
You made me want to tell you everything
Things I never knew were inside of me
So what if I am risking all my heart and soul
So what, you're worth it all to me

(Chorus)

So what if we share something irreplaceable
Something no one else could know, yeah

(Chorus)
