

When You Kiss Me

Katrina Carlson

Constellations in the heavens
I would stare at them searching for a sign
I was jaded separated from emotions
For a long, long time
So it's a mystery, mystery
How you do what you do to me

(Chorus)

I need you more than I want to
And I'm afraid I might lose control
But maybe if I let you in
Maybe love will begin, when you kiss me I'll know
I'll know, when you kiss me I'll know

Buried in a secret garden I had hardened my heart
So it wouldn't break
I was numb barely breathin'
I was sleepin' now I'm wide awake
Deep inside, deep inside
You brought my heart back to life

(Chorus)

(Chorus)

If I could love you, love you, love you, love you oh
I could love you, love you, love you, love you

When you kiss me I'll know
When you kiss me I'll know
