

## When You Kiss Me

Katrina Carlson

Constellations in the heavens  
I would stare at them searching for a sign  
I was jaded separated from emotions  
For a long, long time  
So it's a mystery, mystery  
How you do what you do to me

(Chorus)

I need you more than I want to  
And I'm afraid I might lose control  
But maybe if I let you in  
Maybe love will begin, when you kiss me I'll know  
I'll know, when you kiss me I'll know

Buried in a secret garden I had hardened my heart  
So it wouldn't break  
I was numb barely breathin'  
I was sleepin' now I'm wide awake  
Deep inside, deep inside  
You brought my heart back to life

(Chorus)

(Chorus)

If I could love you, love you, love you, love you oh  
I could love you, love you, love you, love you

When you kiss me I'll know  
When you kiss me I'll know
