

# Prelude To The Kiss

Katrina Elam

Stars, the moon  
Do their best to entertain us  
Do the dance to set the mood  
Night, all night  
It will try to work it's magic  
It will try with all it's might and

[Chorus]

It's good, it's fine  
Yeah, i hear the song birds singin'  
Hear the bells a ringin'  
Everything that they call bliss  
Maybe it is but to me it's just the prelude to the kiss

Take my hand  
In your hand and pull me closer  
Maybe now we're getting somewhere  
It's so beautiful  
Butterflies, they dance in me and  
Pretty eyes romancing me, yeah

[Chorus]

Kiss me and even the milky way  
Could just fade away

[Chorus]

I hear the music playin'  
Hear the angels sayin'  
Everything that they call bliss  
Maybe it is but to me  
Oh, i hear the song birds singin'  
Hear the bells a ringin'  
Everything that they call bliss  
Maybe it is but to me it's just the prelude to the kiss  
Yeah, i hear the song birds singin'  
Yeah, i hear the bells a ringin'
