

## Chase Me

Katy B

Late at night, call me on the phone  
When I'm all alone and you whisper words of sweetness  
Tried to fight, getting in the zone  
Gotta stay at home, but since you know my weakness

You keep saying that you're real  
Give me something I can really feel  
Cause when you say the words  
Can't help but feel the worse

Chase me, you know that I'm the one  
So face me but I can't give it up  
So easy what if you ain't true  
I can't trust my whole heart to you, you, you, you, you

Sad today, walking to the [?]  
With your friends, always like you don't know me  
Nothing to say when I catch you  
[?] you had something to show me

You keep saying that you're true  
Tell you who they can give in to you  
Cause when you say the words  
Can't help but feel the worse

Chase me, you know that I'm the one  
So face me but I can't give it up  
So easy what if you ain't true  
I can't trust my whole heart to you, you, you, you, you

Don't let this go just show me that you're true  
Just let me know you won't break my heart in two  
Patience is a virtue, I won't hurt you, won't deserve you  
If you just hold on, would've been yours all along, along

Chase me, you know that I'm the one  
So face me but I can't give it up  
So easy what if you ain't true  
I can't trust my whole heart to you, you, you, you, you
