

# I Wanna Be

Katy B

I got a funny feeling in my heart, I really wanna tell you  
I didn't seem to see it at the start but now I wanna tell you  
I wanna tell you but I'm just too worried  
I think I got just enough Dutch courage tonight  
It's like a hurricane

Tell me baby, maybe you might  
I wanna be where you're taking me higher  
I wanna be in your arms  
I wanna be where my dreams transpire  
Don't leave me here in the dark  
Tell me baby, maybe you might  
I wanna be where you're taking me higher  
I wanna be in your arms  
I wanna be where my dreams transpire  
Don't leave me here in the dark

I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be

I wanna touch you break that barrier get us out the friend zone  
It's getting deeper, now I fantasize when I'm all on my own  
I wanna tell you that anxiety's a bitch babe  
Wanna forget about exciting me, I'm losing tonight  
Tell me where do I turn, show me now which way  
Stuck at a crossroad, tell me baby, maybe you might

I wanna be where you're taking me higher  
I wanna be in your arms  
I wanna be where my dreams transpire  
Don't leave me here in the dark  
Tell me baby, maybe you might  
I wanna be where you're taking me higher  
I wanna be in your arms  
I wanna be where my dreams transpire  
Don't leave me here in the dark

I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be

You don't know how good it is to dream of you  
I take my time  
Tell me do you feel it like I need you to?  
Come show me a sign

I wanna be where you're taking me higher  
I wanna be in your arms  
I wanna be where my dreams transpire  
Don't leave me here in the dark  
Tell me baby, maybe you might  
I wanna be where you're taking me higher  
I wanna be in your arms  
I wanna be where my dreams transpire  
Don't leave me here in the dark

I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be  
I wanna be, I wanna be
