

# Light As A Feather

Katy B

What does it take to make you feel, get you excited  
To see you smile?  
What does it take to see my world, I know you'll like it  
For once go wild

Baby, but you're so cold with me, be free, yeah  
Come see the sights  
Lover, there's a city you've never seen before  
Come live by night

What's it gonna take for me to see you get down yeah  
Get, get down yeah  
Get down yeah  
(Let's go)

Get down yeah  
Get down yeah  
Get down yeah

What does it take to feel that beat, let it inside you  
Touch your soul  
What does it take to just let the rhythm guide you  
And take control

Baby, don't be scared, don't be self concious  
Close your eyes  
Lover, are you feeling light as a feather?  
Ready to fly

What's it gonna take for me to see you get down yeah  
Get, get down yeah  
Get down yeah

Get down yeah  
Get down yeah  
Get down yeah  
What's it gonna take for me to see you get down yeah

Top of the penthouse, come party with us  
Lose control, I heat up when we touch  
Take for tonight belongs to us  
I'll be your drug, come get high, feel my rush

Baby, baby, let's get crazy  
Maybe I'll introduce you to amazing  
Show me your wild side, I'll be your Vegas  
Don't hold back, it's yours for the taking

What does it take to make you feel, get you excited  
To see you smile?  
What does it take to see my world, I know you'll like it  
For once go wild

Baby, but you're so cold with me, be free, yeah  
Come see the sights  
Lover, there's a city you've never seen before  
Come live by night

What's it gonna take for me to see you get down yeah  
Get, get down yeah  
Get down yeah  
(Let's go)

Get down yeah  
Get down yeah  
Get down yeah  
Get down yeah

Get down yeah  
Get down yeah  
Get down yeah  
Get down yeah
