

# Lose Your Head

Katy B

Lose your head  
When you hear me on the microphone  
Lose your head  
Turn it up and make the speakers blown  
Lose your head  
Till we're really in the danger zone  
Lose your head  
Come on people let it go

Yo, one two, check, is the mic on?  
I keep on moving, keep on moving with the lights on  
I'm in the club, having a good time, you get me?  
And I don't drink, but I'll Bob Marley if they let me  
Baby girl, you're flawless and it's funny cause you hardly try  
That's why I'm sitting here, giving you the naughty eye  
You claim you're bad, now it's time for you to prove it  
I wanna see you go crazy, I wanna see you lose it

Lose your head  
When you hear me on the microphone  
Lose your head  
Turn it up and make the speakers blown  
Lose your head  
Till we're really in the danger zone  
Lose your head  
Come on people let it go

Yo, I feel live tonight  
The vibe is just right tonight  
I feel to touch mic tonight  
Security's tight tonight  
I've got my weed in my sock all night  
I've been drinking a lot  
I'm on my third sambuca shot  
Free drinks all night, got the bar on lock  
I wanna hear you say ooh ooh  
Then I wanna hear you say ooh ooh  
Budubupbup  
Girls and the boys better make some noise  
For the lyrical super duper ooh  
Dirty-ty, that's me-me

Lose your head  
When you hear me on the microphone  
Lose your head  
Turn it up and make the speakers blown  
Lose your head  
Till we're really in the danger zone  
Lose your head  
Come on people let it go

Lose your head  
When you hear me on the microphone  
Lose your head  
Turn it up and make the speakers blown  
Lose your head  
Till we're really in the danger zone

Lose your head  
Come on people let it go

What is this the club's gone crazy  
What is this I see  
No one moves the crowd like katy  
No one does it like me, no

What is this the club's gone crazy  
What is this I see  
Cause I bring that sound they crave me  
No one does it like me, so lose your head

Lose your head  
When you hear me on the microphone (can you hear me coming)  
Lose your head  
Turn it up and make the speakers blown (feel the beat keep bumping)  
Lose your head  
Till we're really in the danger zone (watch the people jumping oh)  
Lose your head  
Come on people let it go

Lose your head  
When you hear me on the microphone (can you hear me coming)  
Lose your head  
Turn it up and make the speakers blown (feel the beat keep bumping)  
Lose your head  
Till we're really in the danger zone (watch the people jumping oh)  
Lose your head  
Come on people let it go
